

## Wigginton and Hopwas Parish Council Reserves Policy

### 1. Purpose

- 1.1. Wigginton and Hopwas Parish Council are required to maintain adequate financial reserves to meet the needs of the organisation. The purpose of this policy is to set out how the Council will determine and review the level of reserves.
- 1.2. Sections 31A and 42A of the Local Government Finance Act 1992 require local authorities to have regard to the level of reserves needed for meeting estimated future expenditure. The Joint Panel on Accountability and Governance Practitioners' Guide 2021 section 1.13 advises that the authority needs to have regard to the need to put in place a General Reserve Policy and have reviewed the level and purpose of all Earmarked Reserves. There is no specified minimum level of reserves that an authority should hold, and it is the responsibility of the Responsible Financial Officer to advise the Council about the level of reserves and to ensure that there are procedures for their establishment and use. Additional supporting information is contained in sections 5.31-5.33 of the [Practitioners' guide](#)

### 2. Types of reserves

- 2.1. Reserves can be categorised as earmarked or general.
- 2.2. Earmarked reserves can be held for several reasons:
  - **Renewals** – to plan and finance an effective programme of new facilities and services, replacement and planned property and land maintenance. These reserves are a mechanism to smooth expenditure so that a sensible programme can be achieved without the need to vary budgets.
  - **Carry forward of underspend** – where some expenditure to projects cannot be spend in the budget year. Reserves are used as a mechanism to carry forward these resources.
  - **Insurance reserve** – to enable the Council to meet the excesses of claims not covered by insurance.

Other earmarked reserves may be set up from time to time to meet known or predicted liabilities. There is no upper or lower limit to the amount that can be held in Earmarked Reserves as long as they are held for a genuine and intended purpose and the levels are subject to regular review and justification.

- 2.3. General reserves are funds which do not have any restrictions as to their use. These reserves can be used to smooth the impact of uneven cash flows, offset the budget requirement if necessary or can be held in case of unexpected events or emergencies.

### 3. Earmarked reserves

- 3.1. Earmarked reserves will be established on a “needs” basis, in line with anticipated requirements.
- 3.2. Any decision to set up a reserve must be given by the Council.
- 3.3. Expenditure from reserves can only be authorised by the Council
- 3.4. Reserves should not be held to fund ongoing expenditure. This would be unsustainable as, at some point, the reserves would be exhausted. To the extent that reserves are used to meet short term funding gaps, they must be replenished in the following years. However, earmarked reserves that have been used to meet a specific liability would not need to be replenished, having served the purpose for which they were originally established.
- 3.5. All earmarked reserves are recorded on a central schedule held by the Responsible Financial Officer which lists the various earmarked reserves and the purpose for which they are held.

### 4. General Reserves

- 4.1. The level of general reserves is addressed in the Practitioners’ Guide 2021 section 5.32. The primary means of building general reserves will be through an allocation from the annual budget. This will be in addition to any amounts needed to replenish reserves that have been consumed in the previous year.
- 4.2. Setting the level of general reserves is one of several related decisions in the formulation of the medium-term financial strategy and the annual budget. The Council must build and maintain sufficient working balances to cover the key risks it faces.
- 4.3. If in extreme circumstances general reserves were exhausted due to major unforeseen spending pressures within a particular financial year, the Council would be able to draw down from its earmarked reserves to provide short term resources.

### 5. Current level of financial reserves

- 5.1. The level of financial reserves held by the council will be agreed by the council during the discussions held regarding the setting of the budget for the next financial year and year end accounting procedures.

The level of general reserves to be held by a Council should be between 3 and 12 months of the annual revenue expenditure (i.e. total expenditure less any expenditure from reserves). For smaller authorities this should be closer to 12 months. The Budgeted Annual Revenue Expenditure for Wigginton and Hopwas Parish Council is £23,155 for 2022/23. Based on our cash position at 31.12.22 general reserves are currently £22,793.94, the anticipated general reserves at year end are £18,558.
